

Science Spectrum's Spring 2017 ITV Schedule

Regular Program Days and Times

Wednesdays and Thursdays: 9:15am 10:15am 1:00pm

Please contact Matt Davis at Region 17 to schedule ITV programs:
mdavis@esc17.net. Please make all reservations and cancellations at least 24 hours
in advance

For any questions or comments about program content, please contact Eloralee
Todd at the Science Spectrum: eloralee@sciencespectrum.org

January 25th & 26th

Stars & Seasons

As our Earth revolves around the Sun, our closest star, the seasons and our night sky change. We will learn about Earth's rotation, the Sun, and some of the stars we can see tonight.

February 1st & 2nd

Astronauts & Our Solar System

Have you ever wanted to travel to outer space? We will take a look at our solar system and explore how scientists and astronauts are learning more about things that are out-of-this-world!

February 8th & 9th

Earth's Fast Changes

Erosion changes the landscape of our Earth slowly, but some things can change within a matter of minutes. We will discuss some of Earth's fast changes including earthquakes, volcanoes, hurricanes, and more.

February 15th & 16th

Water Cycle

Did you know we drink the same water the dinosaurs drank? We will take a look at how Earth naturally recycles water through the water cycle, and how it all starts with the Sun.

February 22nd & 23rd

Earth, Ecosystems, & Survival

Our earth is incredibly diverse. We will take a look at different types of ecosystems and how plants and animals adapt and survive in unique environments.

March 1st & 2nd

Severe Weather Awareness

Bad weather might be on its way. Let's learn what to expect and how we can prepare ourselves and our families. We may even meet an actual meteorologist! Also, get a sneak peek at some of the activities we will have for the 11th Annual Severe Weather Awareness Day at the Science Spectrum, March 4th.

March 8th & 9th

Animal Kingdom

Let's dive into the worlds of mammals, birds, fish, and invertebrates! We'll explore what makes each group so unique from the others, and will even have special animal guests joining us.

March 22nd & 23rd

Be the Dinosaur

Go back in time as we take an inside look at the Science Spectrum's spring exhibit, *Be the Dinosaur: Life in the Cretaceous*. We will learn how dinosaurs behaved, what they ate, how they protected themselves, and how we know what we know as we look at dinosaur fossils, recreations, and more.

March 29th & 30th

Reptiles & Amphibians

From slithering to hopping, we will discuss the differences between reptiles and amphibians. We will take a closer look at some of the reptiles and amphibians here at the Science Spectrum.
